

SCALE 1:4000

**NOTE**

- 1) The flood level may be rise due to obstructions to the flow of debris and growth of unwanted bushes & trees in the river course.
- 2) The flood levels may rise due to encroachments in the river course. The responsibility to prevent these encroachments lies with the concerned municipal council and the local bodies in which the river portion falls.
- 3) Any change in the cross-section of the river due to any reason may change the flood levels.
- 4) For the sake of accuracy the data contained in the village maps obtained from G.L.R. may be considered for all practical purposes.
- 5) All the structures including K.T.Weir's in existence area considered while finalising the blue and red line levels.
- 6) Digitisation of G.P. Maps and internal plots on blue & red line map will be done by municipal councils and local bodies only.
